

Standard Childcare Practice

Snack-times and mealtimes

Snack times

- A 'snack' is prepared mid-morning and mid-afternoon and can be organised according to the discretion of the setting leader e.g. picnic on a blanket.
- Children may also take turns to help set the table. Small, lidded plastic jugs are provided with choice of milk or water.
- Children wash their hands before and after snack-time.
- Children are offered semi-skimmed milk as a main drink.
- Fruit or raw vegetables, such as carrot or tomato, are offered in batons, which children should be encouraged to help in preparing. Bananas and other foods are not cut as rounds, but are sliced to minimise a choking hazard.
- Portion sizes are gauged as appropriate to the age of the child.
- Biscuits should not be offered, but toast, rice cakes or oatcakes are good alternatives.
- Children arrive as they want refreshment and leave when they have had enough. Children are not made to leave their play if they do not want to have a snack.
- Staff join in conversation and encourage children's independence by allowing them to pour drinks, butter toast, cut fruit etc.

Mealtimes

- Tables are never overcrowded during mealtimes. Some social distancing is encouraged even though it is acknowledged that children will play in close proximity for the rest of the session.
- Cloths are used where practical.
- If having a hot meal their food is brought to the room from the main kitchen plated ready to eat.
- Children wash their hands and sit down as food is ready to be served.
- When not in a pandemic staff have their lunch with children and do not eat different food in front of children. Staff who are eating with the children role-model healthy eating and best practice at all times, for example not drinking cans of fizzy drinks in front of the children.

- Children are given time to eat at their own pace and are not hurried to fit in with adults' tasks and breaks. They are not made to eat what they do not like and are only encouraged to try new foods slowly.
- In order to protect children with food allergies or specific dietary requirements, children are discouraged from sharing and swopping their food with one another.
- If children do not eat their main course, they are not denied pudding. Food is not used as a reward or punishment.
- Mealtimes are relaxed opportunities for social interaction between children and the adults who care for them.
- After lunch children are encouraged to tidy up after themselves.
- Children wash their hands supported by a member of staff after lunch and go out for outdoor play. Cleaning teeth no sooner than 1 hour after lunch is recommended where hygiene procedures pose no risk (see procedure Oral health)/ It is not always recommended for groups in shared premises.
- Information for parents is displayed on the parent's notice board, including:
 - Ten Steps for Healthy Toddlers https://infantandtoddlerforum.org/media/upload/pdf-downloads/HR_toddler_booklet_green.pdf
 - Daily menus including identification of any foods containing allergens
